## New & Reconditioned Tables

Scrip Hessco tables are completely reconditioned by our factory trained technicians and guaranteed by us. We stand behind each table with the only nationwide network of experienced office and service personnel. We are the largest new table dealer in the world. We refurbish brands like Lloyd, Zenith, Pivotal Health, Leander, Elite and other manufacturers using a combination of new and refurbished parts.

## Full Spine Panels

Our exclusive full spine positioning system for Digital Imaging is specifically designed to provide unparalleled ease of patient positioning for full spine imaging, while providing unmatched accuracy in digitally stitched images.

- Full spine images in one shot
- No stitching of images required
- Reduced chance of motion
- Large 17" X 42" imaging area
- Wireless operation
- Excellent geometric accuracy

## Upper Cervical Specialties

We offer x-ray equipment that allows for specialty focus on upper cervical, including tilting buckys, head clamps, positioning chairs and more. Many of our chiropractic solutions include upper cervical measurement tool sets like AO and NUCCA.

### X-Ray Install Services

- Project Consultation
- Room Drawings
- Project Management
- Physicist Report
- Shielding Materials
- Financing-SBA's

## DDR (Dynamic Digital Radiography)

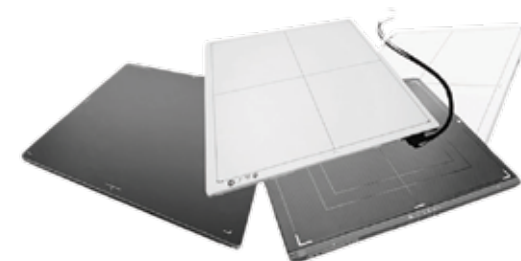

### X-Ray That Moves

What do you get when a series of individual digital images are acquired at a high rate of speed at low doses? This cineloop enables clinicians to observe motion of anatomical structures over time enhancing diagnostic capabilities. The motion series are analyzed and quantified with the DDR advanced image processing capability. DDR is not fluoroscopy.

## Chiropractic Straight Arm

A single detector solution that offers the easiest method of positioning in the industry. The system's design insures alignment between tube and receptor at any angle. The full dynamic range of motion allows for easy imaging of the spine and extremities.

## Digital Radiography

Digital Radiography (DR) direct capture X-Ray systems are available in wireless, fixed and hybrid configurations.

## Software & Measurement Tool Sets

Our DR solutions include the industry's most technologically advanced and user-friendly software applications. Solutions fit your office workflow and easily educate patients.

- Highest resolution image processing algorithms
- Easy to manipulate images help diagnose patients faster
- MXR Solutions allow for software use anywhere in the clinic

## Chiropractic Tools

- NEW Penning Analysis
- Advanced Orthogonal Analysis
- Gonstead measurements
- Upper Cervical Analysis
- George's Lines
- Ilium Analysis
- Line Drawing
- Measuring
- Angles (Regular, Cobb)
- Cervical Curve
- Lumbar Curve
- Orthospinology
- Full Spine Stitching
- Spine Labeling
